LOW INCOME HOME ENERGY ASSISTANCE PROGRAM

LIHEAP

For many Illinois households, energy costs place a severe and continuing stress on the family budget. In some instances, the household is forced to make painful decisions regarding which bills to pay and which necessities to survive without. **The Low Income Home Energy Assistance Program (LIHEAP)** assists eligible households

with paying for winter heating services. Eligible households are determined by household size, income, geographical location, and type of fuel used.

An overdue bill or disconnect notice is not required. You do not have to own your own home or pay your gas and/or electric bills directly to be eligible for assistance.
